Glow UP

I found this beautiful Model on Instagram and instantly fall in love with her beautiful eyes - she has heterochromia. I wanted to shoot her Beauty - on her profile were no close portraits so I wanted to give her a completely glow up. I asked Natia if she could do the hair and makeup and Marie got her hair dyed a week before our shooting. This Photoshooting is a completely transformation of her - from blonde to brunette and enhancing her beautiful eyes with the Makeup and styling. I also had the idea to use some "tattoos" for a beauty shooting and combined it with her transformation.
